

I, Samantha Batista, docket number # 20 Civ. 5688 (JPC) certify that the following statements below are true and correct to the best of my knowledge.

I was discriminated on my sexual orientation harassed and went through the worst injustice and harsh punishment and suffering in MCC Metropolitan Correctional Center due to Ms. Patterson picking and harassing me. LT. Grijalva was the one who through me in the situ for almost 4 months (four months) which was the suicide room because MCC had no women situ. Mr. Grijalva kept giving me the run around had me there for months and at the end it was all about a 300 series shot which was a 312 insolence to a staff which you do no situ time for I seen DHO and they still left me in that room confide for another month in a half. Thats where warden Ms. Vitale and Captain Nash kept telling me I was leaving one week then a next and nothing they had the power to take me out that room but they didn't. These officers with there unorthodox behaviors and harrasments and discrimination made me go through so much emotional abuse induced my stress when they are suppose to be role models to the inmates. Instead I got discriminated berated called a confused individual do to my sexual orientation I have plenty of more witnesses even other officers. I wrote everything up to phycology the warden my judge and to the courts. I was denied medical care, phone calls, Recreation time which is all part of my constitutional rights.

Humblly yours,

Samantha Batista

Wash violated her rights for her 8th Amendments by throwing her in SHU for about 3 months and gave her no free time she is entitled to 1 hour a day. They were the ones running the jail and LT.
